

# TELOK KURAU SECONDARY SCHOOL

## *A School Of Opportunities*

**We provide pupils with opportunities to become MATURE LEARNERS.**

- We have strict discipline, yet we have a **NO CANING POLICY!**
- Pupils are treated as ladies and gentlemen. All gentlemen wear **LONG PANTS!**
- Pupils go to their teachers' home rooms for lessons. The **HOME ROOM System** is what you get in a JC, Polytechnic or University.

**We provide pupils with opportunities to pursue ACADEMIC EXCELLENCE.**

- Pupils are given opportunities to do Triple Science (Pure Physics, Pure Biology, Pure Chemistry) and Double Mathematics (Additional and Elementary Maths) in Sec 3.
- Pupils' results are our Priority! We have achieved value-added academic results for the GCE 'O' level exams for the last 3 years!

**We provide pupils with opportunities to become EFFECTIVE LEADERS.**

- 100% of our pupils are trained to be leaders. 60% of our pupils take on leadership roles in the school!

**We provide pupils with opportunities to pursue their PASSION.**

- New CCAs can be set up if we have a critical number of interested pupils requesting. Some of the new CCAs set up are: Robotics, 24-Drums, Lion Dance
- New programmes are also introduced into our curriculum based on pupils' passion. The latest programmes are Music Technology and Guitar lessons for all lower sec pupils.
- Local & Overseas Camps for all Sec 1 – 3 pupils

## Our Programmes

In Telok Kurau Secondary, the focus is on our INSTRUCTIONAL PROGRAMMES. We believe that everyone can succeed. The school hopes all pupils will go beyond their expected achievement levels. To complement our Instructional Programmes, we have:

### SUPPLEMENTARY PROGRAMMES

#### o Directed Self-Study Programme (DSP)

The DSP is designed to supplement the instructional programmes beyond curriculum hours.

#### o Research Examination Papers (REAP)

The REAP programme gives pupils confidence in handling tests and examinations.

#### o Structured Reading Programme (SRP)

The SRP is a programme by the English Language Department to promote reading and writing.

#### o Peer Teaching Programme (PTP)

The PTP encourages pupils to learn from their peers within the curriculum hours.

#### o IT Programme (ITP)

The ITP is designed for pupils to learn web page design, desktop publishing and other software applications required by the various instructional programmes.

### ENRICHMENT PROGRAMMES

#### o Exchange Programme with Hwa Chong Institution

Selected pupils will spend a week at Hwa Chong Institution for lessons and activities

#### o Immersion Programme with Singapore Polytechnic

#### o Elective Module Programme for Upper Sec Normal (Academic) and Normal (Technical)

#### o Advanced Elective Module with the Singapore Polytechnic for Direct Polytechnic Admission

#### o Educational and Career Talks to help pupils plan their future

#### o Arts Education Programme where pupils are exposed to different art forms
